Clyde Savannah Middle School 21st Century Afterschool Program

What's Happening?

Right now, we are doing cooking and laser engraving during enrichment. We made burritos and pizza. We learned how to work the stove and oven, but the teacher puts stuff in the oven. When I cook on the stove we turn the knob to how hot it needs to get. We learned not to put too much sauce on the pizza and that sauce on the foil will burn. After we are done cooking we clean the dishes, sweep the floor and clean the tables. Cooking is really fun and we get to eat what we make!

Last enrichment, we made robots and programmed them to move. Now we are doing laser engraving. You can laser engrave anything you want on wood like trucks, logos, and pictures. Mr. Drahms can help you with anything! Laser engraving is so much fun and you get to keep what you make.

By: Ava Nicoletta, Jessica Sullivan, & Mercedes Foro

Community Center

You should go to the community center because there is so much to do. One thing you can do is play foosball inside and go against your friends. Another thing you could do is play outside for basketball or with the indoor basketball hoop. We sometimes have crafts to do too inside. For example, one time we made pumpkins out of yarn for Halloween and they turned out great. If you're not the outside or crafts person, there is also a Wii and a Playstation for video games to compete against your friends. You can also compete against your friends on the air hockey table. If you get hungry there are drinks and snacks provided for you. So bring your friends and come down here on Wednesdays at 5-8pm and Fridays at 3-5:30pm and have yourself a great time!!

By: Brianna Sullivan and Leah Yonge

Notes from Mrs. Youngman

Hello All,

This year's 21st program is off to a great start. We really enjoyed our outdoor time before the time change! We're currently learning new classroom games, how to use a laser engraver, and some awesome cooking skills.

As the weather gets colder, please remind your student(s) to bring a jacket in case we go outside and for bus dismissal.

Don't Forget:

Open Swim hours on Monday are 6-8 for family swim

Wednesday hours are 6-7:15 for family swim and 7:30-8:30 for adult swim

21st Century received a grant especially for the middle and high school. This means that we are able to provide awesome events for students. Our first event will be on Saturday December 9th. Students who received honor roll and up this quarter can join us in the HS from 1-4 for bounce houses in the gym and open swim! Please RSVP by Thursday December 7th if your student plans to attend.

Stay tuned for more fun activities!!

Mrs. Youngman

Teacher of the Quarter!

Mr. Drahms

Mr. Drahms was chose by Zachary Whitton and Nathen Perkins as the teacher of the Quarter!

Q: Where did you go to college? and how long? (Z)

A: I attended Oswego State for 4 years for my undergrad and for a year for my Masters degree.

Q: Why did you want to be a tech teacher? (N)

A: I wanted to be a Technology Teacher for many reasons. Technology encompasses a number of subjects so that I'm not teaching the same subject and content every day. Technology curriculum changes constantly. This allows me to have flexibility with my courses to teach with the computer, the textbook, or with power tools. The best part of being a Technology teacher is being able to teach students very important life skills in our fast paced technological world we live in.

Q: Why did you want to have kids? (Z)

A: I wanted to have kids because they are the best!! Being a parent is the toughest but most rewarding job I'll ever have.

Q: If you had the option would you be a construction worker or an architect? (N)

A: If I had the option, I would work in construction

Q: What is your favorite color? (Z)

A: My favorite color is blue

Q: What other job would you like to have? (N)

A: Another job that I would be interested in having would be a Construction Manager

Q: What is your favorite animal? (Z)

A: My favorite animal is my dog

Q: Have you ever been interested in sports(played/been a part of a team) (N)

A: My favorite sport is cutting and chopping firewood. LOL. I played football, baseball, and basketball in school.
